PROFESSIONAL SUMMARY

Product Designer with **4+ years** driving measurable outcomes across high-growth digital products. Specialist in human-centered design, scalable design systems, accessibility driven UI and AI-augmented workflows. Proven cross-functional team player who connects user insights to revenue-linked OKRs.

EXPERIENCE

Educative

Lahore, Pakistan · Remote-Eligible
November 2024 – Present

Product Designer II, Full-time

↑ Promoted: Product Designer I → II · 9 months

- Drove **30% faster design-to-dev handoff**, saving ~4 engineering hours per sprint, by consolidating 200+ components, tokens, and standards into a single cross-platform design system.
- Projected **15% learner drop-off reduction** across 1M+ users by designing AI hint flows and adaptive recommendation UI with ML engineers.
- Freed **~6 hours per week** (30% of review time) by embedding Claude, ChatGPT, and automated accessibility auditing into the design workflow.
- Achieved **9% purchase conversion lift** and **2.5% sign-up growth**, boosting subscription revenue, by auditing onboarding and internal flows and shipping A/B-validated UI changes.

Tkxel – ReloadUX

Lahore, Pakistan

UX/UI Designer, Full-time

July 2023 – October 2024

- Delivered **72% task-performance improvement** and **95% CSAT** by restructuring ERP/CRM information architecture through 3 rounds of moderated usability testing, restoring confidence in 2 legacy platforms.
- Saved **2+ weeks per engagement** across 5 projects, reclaiming ~50 team hours per quarter, by building a reusable Figma component library and handoff protocol adopted team-wide.
- Cut **user error rate 35%** across 3 enterprise products, reducing support load, by synthesising 12+ usability tests via affinity mapping and shipping changes within 2-week sprints.

AlPixel

Lahore, Pakistan

UX Designer, Full-time

February 2023 – July 2023

- Won **5 client contracts** at **100% approval rate**, driving pipeline growth, by redesigning the company website and delivering wireframe-to-prototype designs end-to-end.
- Compressed full product design cycles to **<6 weeks** by leading a 2-person team through a structured wireframe → test → prototype → handoff sprint process.

Freelance & Contract UX

Lahore, Pakistan

UX Designer, Freelance

August 2022 – February 2023

- Designed end-to-end web and mobile solutions for local e-commerce and small business clients, translating user needs into wireframes and high-fidelity prototypes.
- Applied learnings from the Google UX course directly to live projects, conducting audits and usability testing to improve user flows.

SKILLS
